Scanners never looked better.
Neither did your scans.

Books   Notebooks   Drawings   Account statements

File   Mail   FTP

Contracts   Court papers   Folders   Balance sheets

USB   Print   www   Follow Me

Unpack, switch on, get started

Historical books, new books, magazines, files, ring binders, contracts, balance sheets or land-use plans – you can digitize or copy almost anything with the new zeta. But it doesn't just deliver excellent data, it also looks pretty good and is incredibly easy to operate. That makes the zeta the ideal multi-functional system for digitizing and copying in libraries, archives, universities and schools. Authorities, copy shops, banks, insurance companies, law offices and media companies also quickly appreciate the performance of this compact office aid. The perfect completion of an up-to-date office.

How to plug'n'scan

Simply unpack the device, plug it in, place the original document and off you go. The new zeta delivers high-quality data with the highest resolution in no time flat. You have free choice for data output. You can view, print or mail your data, save it on the USB stick, send it to your Follow-me application, provide it for download via FTP or save it in the cloud. This is how you save paper and help protect the environment today.

Perfectly straight, not crooked or askew

Kafka would have been delighted because the book is on its back with zeta and is scanned very carefully from the top. Simply turn the page after every scan. Distorted letters in the book fold or bent plots are automatically straightened by the software, as are original documents that are positioned crookedly. You can preview each scan on the high-resolution touchscreen display. Faulty scans are a thing of the past. You have a choice of the new zeta with or without a convenient book cradle.

But don't just listen to us – discover the new zeta for yourself. Because scanners never looked better. Neither did your scans.

Product advantages

compact, functional and revolutionary design
easy installation thanks to plug'n'scan
convenient operation
independent of ambient light
no glare for users
touch panel with multi-touch technology
brilliant color rendering
high scanning speed
short scanning cycles
high depth focus
high quality output data
preview function for quality control
follow-me solutions
multi-lingual user menu
flexible interfaces
Perfect Book 3.0
remote maintenance and remote administration
energy efficiency – in line with Energy Star
Interlibrary Loan compatible
